D_1 trisomy syndrome, cause of: duplication/deficiency product of pericentric inversion in man (Taysi et al.), 263
Deafness, alopecia, and hypogonadism, familial syndrome of (Crandall et al.), 461
Death, late, from neuroblastoma (Konrad, Singher, and Neerhout) (BCLO), 80
(Jaffe) (Letter), 1094
Dehydration, gastroenteritis and, biochemical disturbances in breast-fed infants with (Kingston), 1073
Dehydrogenase–, glucose-6-phosphate, deficient newborn infant, exposure to quinine and jaundice in (Glass et al.) (Letter), 734
phenobarbital for prevention of hyperbilirubinemia in (Meloni et al.) (BCLO), 1048
Delinquency, changing pattern and relationship to ethnic origin and: age of menarche (Litt and Cohen) (BCLO), 288
Deprivation, emotional, psychosocial short stature, resistance to exogenous human growth hormone in (Tanner) (Letter), 171; (Azimi) (Reply), 171
maternal, syndrome, possible relationship between spontaneous hypoglycemia and: case reports (Schutt-Aine, Drash, and Kenny), 809
Deprived child, need for total care of (Schachtel) (Letter), 1095
Dermatoglyphics, simple technique for recording (Sommer and Gregg) (Letter), 1092
Dextrose, L-amino acids and, in low-birth-weight infants, intravenous supplementation of (Pildes et al.), 945
Diabetes mellitus, obesity, and hyperinsulinism in childhood (Martin and Martin), 192
neonatal, transient: delayed maturation of pancreatic beta cell (Pagliara, Karl, and Kipnis) (BCLO), 97
Diabetic mothers, hypoglycemia in infants of: effect of epinephrine therapy (Haworth, Dilling, and Vidyasagar) (BCLO), 94
Diarrhea, iatrogenic, factor in: physiologic deficiency of pancreatic amylase in infancy (Lilibridge and Townes) (BCLO), 279
Digoxin, serum levels of (Huffman and Kauffman) (Letter), 544; (Krasula and Soyka) (Reply), 545
Diphosphatase, fructose 1,6-, deficiency, metabolic and biochemical studies in (Melancon et al.), 650
Diphosphoglucuronyl transferase, uridine, bilirubin, in normal and jaundiced rats, intestinal development of lysosomal and microsomal beta glucuronidase and (Kandall, Thaler, and Erickson), 1013
Disease(s), Gaucher's, infantile, hydrops fetalis due to (Ginsburg and Groll) (BCLO), 1046
hemoglobin S-D, in Negro child (Barton, Stark, and Zarkowsky) (Letter), 164
immune deficiency, primary, of infancy and childhood, Pneumocystis carinii pneumonia and (Walzer et al.), 416
integumentary system, hereditary hearing loss and (Walbaum) (Letter), 175; (Konigsmark) (Reply), 175
lupus-like, in children, anticonvulsant-induced antinuclear antibodies and (Beernink and Miller), 113
neurologic, erythrocyte and leukocyte phosphoglycerate kinase deficiency with (Konrad et al.), 456
Pompe's, deficiency of acid alpha glucosidase in urine of patients with (Salafsy and Nadler) (BCLO), 294
thyroid, advances in laboratory diagnosis of: part I (Fisher), 1
part II (Fisher), 187
Diuretic, anti-, therapy in Bartter's syndrome (Proesmans, Eggermont, and Eeckels) (Letter), 538
Diverticulum, Meckel's, bleeding, preoperative diagnosis of, utilizing ^{99m}technetium pertechnetate scinti-imaging (Jaros, Schussheim, and Levy), 45
Doppler method, measurement of blood pressure in brachial and posterior tibial arteries using (Hartmann et al.) (BCLO), 498

Down's syndrome, small ears in: helpful diagnostic aid (Aase, Wilson, and Smith) (BCLO), 845
Drugs, adverse reactions to: clinicopathologic survey of 200 infants and children (Mullick, Drake, and Irey), 506
anticonvulsant, effects of long-term treatment with (Hooft and Van Acker) (Letter), 1097; (Mabry) (Reply), 1098
antiepileptic, and development of rickets (Livingston and Berman) (Letter), 347; (Borgstedt et al.) (Reply), 348
Dwarfism, atrophy, mental retardation, and generalized aminoaciduria, syndrome characterized by congenital ichthyosis with (Passwell et al.), 466
hypopituitary, islet cell function and glucose homeostasis in: synergism between growth hormone and cortisone (Underwood et al.), 28
Dye test, nitroblue tetrazolium, and differential diagnosis of meningitis (Fikrig et al.) (BCLO), 855
triple, effect on staphylococcal colonization in newborn infant (Pildes, Ramamurthy, and Vidyasagar), 987
Dysplasia, ectodermal, ectrodactyly, and cleft lip-palate syndrome (Robinson, Wildervanck, and Chiang) (BCLO), 107
iris, orbital hypertelorism, and psychomotor retardation: dominantly inherited developmental syndrome (De Hauwere et al.) (BCLO), 679

Ears, small, in Down's syndrome: helpful diagnostic aid (Aase, Wilson, and Smith) (BCLO), 845
ECHO 19 virus, overwhelming neonatal infection with (Philip and Larson), 391
Echocardiographic diagnosis of septic pericarditis in infancy (Pieroni et al.) (BCLO), 689
Ectodermal dysplasia, ectrodactyly, and cleft lip-palate syndrome (Robinson, Wildervanck, and Chiang) (BCLO), 107
Ectrodactyly, ectodermal dysplasia, and cleft lip-palate syndrome (Robinson, Wildervanck, and Chiang) (BCLO), 107
Electrolytes, sweat, in thyroid disorders (Strickland) (BCLO), 284
Electrophoresis of hair root lysates, detection of heterozygous carriers of Lesch-Nyhan syndrome by (Francke, Bakay, and Nyhan), 472
Emotional deprivation, psychosocial short stature, resistance to exogenous human growth hormone in (Tanner) (Letter), 171; (Azimi) (Reply), 171
Emphysema, lobar, congenital, documented by serial roentgenograms (DeLuca, Wesselhoeft, and Frates) (BCLO), 859
Encephalomyelopathy, Leigh's, further speculation on pathogenesis of (De Groot and Hommes) (Letter), 541
pathogenesis of (Lonsdale) (Letter), 169; (Lardy, Tang, and Good) (Reply), 169
Endotracheal tube in newborn infants, rapid maneuvers to determine location of (Scanlon) (Letter), 1091
position in infants (Lindsay) (Letter), 168
Energy metabolism of marasmic infants, changes in growth hormone, insulin, thyroxine values, and in (Parra et al.), 133
Enterocolitis, necrotizing, peritoneal fluid in: radiologic sign of clinical deterioration (Leonidas et al.) (BCLO), 672
Enteropathica, acrodermatitis, treatment of, by intravenous amino acid hydrolysate (Freier et al.) (BCLO), 109
Environment, thermal of low-birth-weight infants, preliminary studies on (Yashiro et al.), 991
Enzyme(s) defect in saccharopinuria (Simell, Johansson, and Aula), 54
iron-containing, in iron deficiency anemia, depletion of (Ozsoylu) (Letter), 168
Epileptic, anti-, drugs and development of rickets (Livingston and Berman) (Letter), 347; (Borgstedt et al.) (Reply), 348
Epinephrine therapy, effect of: hypoglycemia in infants of diabetic mothers (Haworth, Dilling, and Vidyasagar) (BCLO), 94
Erythroblastosis fetalis due to anti-S antibody (Feldman, Luhby, and Gromisch) (BCLO), 88
fetal, metastasizing fetal neuroblastoma with involvement of placenta simulating (Anders, Kindermann, and Pfeifer), 50
Erythrocyte and leukocyte phosphoglycerate kinase deficiency with neurologic disease (Konrad et al.), 456
Ethiopia, severe rickets in infancy and childhood in (Mariam and Sterky), 876
Ethnic origin and delinquency, changing pattern and relationship to: age of menarche (Litt and Cohen) (BCLO), 288
Euthyroid children and adolescents with goiters, clinical, laboratory, and histologic observations in (Hung et al.), 10
Excretion, calcium, in cystic fibrosis (Gruskin et al.) (Letter), 344
Exomphalos-macroglossia-gigantism syndrome, immunodeficiency associated with (Greene et al.), 814

Familial glucocorticoid insufficiency (Moshang et al.), 821
nephrotic syndrome with nephrocalcinosis and tubular dysfunction (Burke, Holley, and Stickler), 202
syndrome of deafness, alopecia, and hypogonadism (Crandall et al.), 461

Feeding, non-oral neonatal, improved methods of: commentary (Heird), 963
nasojejunal: improved device and intubation technique (Rhea, Ghazzawi, and Weidman), 951
Fetal anomalies following maternal trimethadione ingestion (Nichols) (Letter), 885
circulation, persistence of: commentary (Gersony) (Editor's column), 1103
manifestations, in utero detection and: GM_1-gangliosidosis type I (Kaback et al.), 1037
neuroblastoma, metastasizing (Anders) (Letter), 1095
with involvement of placenta simulating fetal erythroblastosis (Anders, Kindermann, and Pfeifer), 50
rabbits, heroin induction of lung maturation and growth retardation in (Taeusch et al.), 869
Fetalis, hydrops, in association with chorioangioma of placenta (Sweet, Reid, and Roberton), (BCLO), 91
erythroblastosis, due to anti-S antibody (Feldman, Luhby, and Gromisch), (BCLO), 88
hydrops, due to infantile Gaucher's disease (Ginsburg and Groll) (BCLO), 1046
Fetoprotein, alpha-1, IgG globulin, and albumin in newborn infants, influence of gestational age on serum levels of (Hyvarinen et al.), 430
Fever, hepatosplenomegaly, pancytopenia, and (Weinberg and Rogers), 879
Fibrin, circulating, in meningococcemia (Kisker and Rush), 787
Fibrinogen concentrations, platelet counts, and factor V and factor VIII levels in healthy infants according to gestational age (Sell and Corrigan), 1028
Fibrosis, cystic, calcium excretion in (Gruskin et al.) (Letter), 344
effects of age on alkaline phosphatase and other serologic liver function tests in normal subjects and patients with (Kattwinkel et al.), 234
metabolic alkalosis and salt depletion in (Arvanitakis and Lobeck) (Letter), 535
new prognostic score and clinical evaluation system for (Taussig et al.), 380
variable effect of bronchodilating agent on pulmonary function in (Landau and Phelan), 863
Fistula, pneumocutaneous, secondary to aspiration of grass (Cavens et al.), (Letter), 737
Fluorescein powder for evaluating contamination in newborn nursery, use of (Scanlon and Leikkanen), 966
Fluorescence, quinacrine, identification of partial 12 trisomy by (Uchida and Lin), 269
Folic acid absorption, congenital isolated defect of (Santiago-Borrero et al.), 450
Formulas, infant, metrication and (van der Horst) (Letter), 163
Fractures, bicycle spoke (Felman) (BCLO), 302
Fructose 1,6-diphosphatase deficiency, metabolic and biochemical studies in (Melancon et al.), 650

G

Ganglioneuroma and neuroblastoma, human, demonstration of cholinergic cells in (Prasad, Mandal, and Kumar) (BCLO), 677
Gangliosidosis, GM_1-, type I: in utero detection and fetal manifestations (Kaback et al.), 1037
Gastroenteritis and dehydration, biochemical disturbances in breast-fed infants with (Kingston), 1073
Gaucher's disease, infantile, hydrops fetalis due to (Ginsburg and Groll) (BCLO), 1046
Gentamicin, effect on liver glucuronyl transferase (Malaka-Zafiriu, Tsiouris, and Cassimos), 118
Gestational age, influence of, on serum levels of alpha-1 fetoprotein, IgG globulin, and albumin in newborn infants (Hyvarinen et al.), 430
platelet counts, fibrinogen concentrations, and factor V and factor VIII levels in healthy infants according to (Sell and Corrigan), 1028
Gingivostomatitis, herpetic, primary, tracheostomy in (Fermaglich and Fermaglich) (Letter), 887
Globulin, IgG, alpha-1 fetoprotein, and albumin in newborn infants, influence of gestational age on serum levels of (Hyvarinen et al.), 430
Glomerulonephritis, chronic, immunosuppressive treatment of (Kallen and Lewis), 335
extramembranous, in children: report of 50 cases (Habib, Kleinknecht, and Gubler), 754
(membranous glomerulopathy) (West) (Editor's column), 902
Glomerulopathy of congenital syphilis (Hughes) (Letter), 1098; (Kaplan and Drummond) (Reply), 1099
Glottic, sub-, stenosis, congenital (Cundy and Bergstrom) (BCLO), 282
Glucocorticoid insufficiency, familial (Moshang et al.), 821
Glucose disappearance rate in neonatal infection (Yeung, Lee, and Yeung) (BCLO), 486
homeostasis in hypopituitary dwarfism, islet cell function and: synergism between growth hormone and cortisone (Underwood et al.), 28
6-phosphate dehydrogenase–deficient newborn infant, exposure to quinine and jaundice in (Glass et al.) (Letter), 734
phenobarbital for prevention of hyperbilirubinemia in (Meloni et al.) (BCLO), 1048

Glucosidase, alpha, acid, in urine of patients with Pompe's disease, deficiency of (Salafsky and Nadler) (BCLO), 294
Glucuronidase, beta, deficiency: report of clinical, radiologic, and biochemical features of new mucopolysaccharidosis (Sly et al.), 249
lysosomal and microsomal, and bilirubin uridine diphosphoglucuronyl transferase in normal and jaundiced rats, intestinal development of (Kandall, Thaler, and Erickson), 1013
Glucuronyl transferase, liver, effect of gentamicin on (Malaka-Zafiriu, Tsiouris, and Cassimos), 118
Glycemic response to 24 hour fast in normal children and children with ketotic hypohypoglycemia (Chaussain), 438
Goiters, adolescents with, clinical, laboratory, and histologic observations in euthyroid children and (Hung et al.), 10
Growth and development, constitutional delay of: effects of treatment with androgens (Kaplan et al.), 38
hormone and cortisone, synergism between: islet cell function and glucose homeostasis in hypopituitary dwarfism (Underwood et al.), 28
human, exogenous, in psychosocial short stature (emotional deprivation), resistance to (Tanner) (Letter), 171; (Azimi) (Reply), 171
insulin, and thyroxine values, and in energy metabolism of marasmic infants, changes in (Parra et al.), 133
retardation, lung maturation and, in fetal rabbits, heroin induction of (Taeusch et al.), 869

H

Hair root lysates, electrophoresis of, detection of heterozygous carriers of Lesch-Nyhan syndrome by (Francke, Bakay, and Nyhan), 472
Hashimoto's thyroiditis, juvenile, biopsy-proved, prevalence of low-titer and "negative" antithyroglobulin antibodies in (Loeb, Drash, and Kenny), 17
HB group of bacteria, infections in children caused by (Kaplan, McCracken, and Nelson), 398
Health manpower, pediatric, for 1970's, blueprint for (Silver), 149
services, school, relation to: medical communications (Hunt) (Letter), 346; (Hoffman) (Letter), 346; (Sewell) (Reply), 347
Hearing loss, hereditary, and integumentary system disease (Walbaum) (Letter), 175; (Konigsmark) (Reply), 175
Hematocrit variations in normovolemic newborn lambs, circulatory effects of (Fouron and Hébert), 995
Hematocrit—Cont'd
values, hemoglobin and: what is normal (Kaufman) (Letter), 543; (Oski) (Reply), 543
Hematuria, macroscopic, recurrent, focal nephritis, and mesangial deposition of immunoglobulin and complement (Roy et al.), 767
Hemodialysis, survival of infant of mother dependent upon (Robinson, Unzelman, and Chojnacki) (Letter), 537
Hemodynamic and clinical history: valvar aortic stenosis in childhood (Hurwitz), 223
Hemoglobin and hematocrit values: what is normal (Kaufman) (Letter), 543; (Oski) (Reply), 543
levels according to age, race, and transferrin saturation in preschool children of comparable socioeconomic status (Owen, Lubin, and Garry) (BCLO), 850
S-D disease in Negro child (Barton, Stark, and Zarkowsky) (Letter), 164
Hemolytic, beta, streptococcal, group B, meningitis in infants (Barton, Feigin, and Lins), 719
uremic syndrome in California: review of 28 nonheparinized cases with long-term follow-up (Tune, Leavitt, and Gribble), 304
uremic syndrome. (*See* The value of collaboration: the California model) (Lieberman) (Editor's column), 363
Hemophilia home transfusion program: effect of cryoprecipitate utilization (Lazerson) (BCLO), 857
Hemorrhage, intestinal, massive, due to hookworm infection in neonate, successful treatment of (Hollander, Tabingo, and Stankewick), 332
Heparin, report of 19 patients treated with: meningococcal purpura (Gérard et al.), 780
therapy in acute meningococcemia (Hathaway) (Editor's column), 900
Heparinized, non-, cases with long-term follow-up, review of: hemolytic-uremic syndrome in California (Tune, Leavitt, and Gribble), 304
Hepatic coma, cross circulation between children in, and chimpanzees (MacDonell et al.), 591
failure, disseminated aspergillosis during treatment of (Enberg, Bletzinger, and Burry) (Letter), 737
Hepatosplenomegaly, pancytopenia, and fever (Weinberg and Rogers), 879
Hereditary hearing loss and integumentary system disease (Walbaum) (Letter), 175; (Konigsmark) (Reply), 175
nephronophthisis, juvenile, in monozygotic twins, identical progression of (Makker et al.), 773
Heroin induction of lung maturation and growth retardation in fetal rabbits (Taeusch et al.), 869

Herpetic gingivostomatitis, primary, tracheostomy in (Fermaglich and Fermaglich) (Letter), 887
Heterozygous carriers of Lesch-Nyhan syndrome, detection of, by electrophoresis of hair root lysates (Francke, Bakay, and Nyhan), 472
Hexachlorophene, effect on staphylococcal colonization rates in newborn infant: controlled study using single-bath method (Kwong et al.), 982
in low-birth-weight infants, cutaneous absorption of (Kopelman), 972
myelinopathy in premature infants (Powell et al.), 976
Hexanoic and butyric acidemia, identification of isovalerate, isovalerylglycine, and 3-hydroxyisovalerate in urine of patient previously reported as having: isovaleric acidemia (Ando et al.), 243
Histiocytic leukemia following lifelong infection and thrombocytopenia: histologic, metabolic, and bactericidal studies (Johnson, Griep, and Baehner), 664
Histologic, metabolic, and bactericidal studies: histiocytic leukemia following lifelong infection and thrombocytopenia (Johnson, Griep, and Baehner), 664
observations, clinical, laboratory and, in euthyroid children and adolescents with goiters (Hung et al.), 10
Homeostasis, glucose, in hypopituitary dwarfism, islet cell function and: synergism between growth hormone and cortisone (Underwood et al.), 28
Hookworm infection in neonate, successful treatment of massive intestinal hemorrhage due to (Hollander, Tabingo, and Stankewick), 332
Hormone, growth, and cortisone, synergism between: islet cell function and glucose homeostasis in hypopituitary dwarfism (Underwood et al.), 28
human, exogenous, in psychosocial short stature (emotional deprivation), resistance to (Tanner) (Letter), 171; (Azimi) (Reply), 171
insulin, and thyroxine values, and in energy metabolism of marasmic infants, changes in (Parra et al.), 133
thyroid, plus cortisone, advancement of skeletal age of hypopituitary children treated with (Van den Brande et al.), 22
Host resistance factors in human milk (Goldman and Smith), 1082
Human growth hormone, exogenous, in psychosocial short stature (emotional deprivation), resistance to (Tanner) (Letter), 171; (Azimi) (Reply), 171
Hurler's syndrome, plasma infusions in infant with (Booth and Nadler), 273
Hydrolysate, amino acid, intravenous, treatment of acrodermatitis enteropathica by (Freier et al.) (BCLO), 109
Hydrops fetalis in association with chorioangioma of placenta (Sweet, Reid, and Roberton) (BCLO), 91
due to infantile Gaucher's disease (Ginsburg and Groll) (BCLO), 1046
Hydroxyindolacetic, 5-, acid in low-birth-weight infants with and without phototherapy, urinary excretion of (Spennati, Girotti, and Orzalesi) (BCLO), 286
Hydroxyisovalerate, 3-, isovalerate, and isovalerylglycine in urine of patient previously reported as having butyric and hexanoic acidemia: isovaleric acidemia (Ando et al.), 243
Hyperbilirubinemia, neonatal, controlled trial comparing agar, intermittent phototherapy, and continuous phototherapy for reducing (Maurer et al.), 73
Hyperinsulinism, obesity, and diabetes mellitus in childhood (Martin and Martin), 192
Hypersensitivity, cellular, associated with ingestion of colostrum, possible induction and/or acquisition of (Mohr) (BCLO), 1062
Hypertelorism, orbital, iris dysplasia, and psychomotor retardation: dominantly inherited developmental syndrome (De Hauwere et al.) (BCLO), 679
Hypertonic sodium phosphate medication, coma in infant due to (Smith, Feldman, and Furukawa) (BCLO), 481
Hypertrophic interstitial polyneuropathy in infancy (Anderson et al.), 619
Hypocalcemia, neonatal, of prematurity, possible pathogenetic factors in (Tsang et al.), 423
Hypoglycemia in infancy and childhood: part I (Pagliara et al.), 365
part II (Pagliara et al.), 558
in infants of diabetic mothers: effect of epinephrine therapy (Haworth, Dilling, and Vidyasagar) (BCLO), 94
ketotic (Senior) (Editor's column), 555
glycemic response to 24 hour fast in normal children and children with (Chaussain), 438
neonatal, hypoplasia of anterior pituitary and and (Johnson et al.), 634
spontaneous, and maternal deprivation syndrome, possible relationship between: case reports (Schutt-Aine, Drash, and Kenny), 809
Hypogonadism, deafness, and alopecia, familial syndrome of (Crandall et al.), 461
Hypopituitary children treated with thyroid hormone plus cortisone, advancement of skeletal age of (Van den Brande et al.), 22
dwarfism, islet cell function and glucose homeostasis in: synergism between growth hormone and cortisone (Underwood et al.), 28

Hypoplasia, adrenal, congenital: isolated defect of organogenesis (Sperling, Wolfsen, and Fisher), 444
of anterior pituitary and neonatal hypoglycemia (Johnson et al.), 634
Hypoplastic anemia (Starling and Fernbach) (Letter), 735
Hypothalamic, pituitary-, dysfunction in generalized lipodystrophy (Mabry et al.), 625
Hypothyroidism, congenital, polymorphonuclear lobe counts in (Kiossoglu et al.) (Letter), 162

I

Ichthyosis, congenital, with atrophy, mental retardation, dwarfism, and generalized aminoaciduria, syndrome characterized by (Passwell et al.), 466
IgG globulin, alpha-1 fetoprotein, and albumin in newborn infants, influence of gestational age on serum levels of (Hyvarinen et al.), 430
IgM response, measles, during reinfection of previously vaccinated children (Linnemann et al.), 798
Immune deficiency diseases, primary, of infancy and childhood, Pneumocystis carinii pneumonia and (Walzer et al.), 416
Immunity to varicella, corticosteroids and (Lopez) (Letter), 740; (Gershon and Brunell) (Reply), 740
Immunodeficiency associated with exomphalos-macroglossia-gigantism syndrome (Greene et al.), 814
Immunoglobulin and complement, mesangial deposition of, recurrent macroscopic hematuria, focal nephritis, and (Roy et al.), 767
Immunosuppressive treatment of chronic glomerulonephritis (Kallen and Lewis), 335
Infection(s) in children caused by HB group of bacteria (Kaplan, McCracken, and Nelson), 398
group B streptococcal neonatal and infant (Franciosi et al.), 707
hookworm, in neonate, successful treatment of massive intestinal hemorrhage due to (Hollander, Tabingo, and Stankewick), 332
lifelong and thrombocytopenia, histiocytic leukemia following: histologic, metabolic, and bactericidal studies (Johnson, Griep, and Baehner), 664
neonatal, glucose disappearance rate in (Yeung, Lee, and Yeung) (BCLO), 486
neonatal, new challenge in: group B streptococci (McCracken), 703
overwhelming, with ECHO 19 virus (Philip and Larson), 391
re-, of previously vaccinated children, measles IgM response during (Linnemann et al.), 798
subclinical, experience with, follow-up on rubella vaccination and (Huygelen and Prinzie) (Letter), 1096; (Farquhar) (Reply), 1097
respiratory, viral and bacterial, with exacerbations of wheezing in young asthmatic children, association of (McIntosh et al.), 578
Ingestion of colostrum, possible induction and/or acquisition of cellular hypersensitivity associated with (Mohr) (BCLO), 1062
of poisons, comparison of ipecac syrup and apomorphine in immediate treatment of (MacLean), 121
Insulin, growth hormone, and thyroxine values, and in energy metabolism of marasmic infants, changes in (Parra et al.), 133
Integumentary system disease, hereditary loss and (Walbaum) (Letter), 175; (Konigsmark) (Reply), 175
Intensive care, neonatal: planning for services and outcomes following care (Schlesinger), 916
Interstitial, hypertrophic, polyneuropathy in infancy (Anderson et al.), 619
Intestinal development of lysosomal and microsomal beta glucuronidase and bilirubin uridine diphosphoglucuronyl transferase in normal and jaundiced rats (Kandall, Thaler, and Erickson), 1013
hemorrhage, massive, due to hookworm infection in neonate, successful treatment of (Hollander, Tabingo, and Stankewick), 332
Intoxication, amitriptyline, propranolol in treatment of cardiac arrhythmias associated with (Roberts, Mueller, and Lauer), 65
ammonia: relevance in total parenteral alimentation (Forbes) (Letter), 890
Inversion, pericentric, in man, duplication/deficiency product of: cause of D_1 trisomy syndrome (Taysi et al.), 263
Ionized calcium values, serum, in relation to exchange transfusion (Gershanik, Levkoff, and Duncan) (BCLO), 847
Ipecac syrup and apomorphine in immediate treatment of ingestion of poisons, comparison of (MacLean), 121
Iris dysplasia, orbital hypertelorism, and psychomotor retardation: dominantly inherited developmental syndrome (De Hauwere et al.) (BCLO), 679
Iron-containing enzymes in iron deficiency anemia, depletion of (Ozsoylu) (Letter), 168
deficiency anemia and scholastic achievement in young adolescents (Webb and Oski), 827

Islet cell function and glucose homeostasis in hypopituitary dwarfism: synergism between growth hormone and cortisone (Underwood et al.), 28
Isoimmune purpura, neonatal: response to platelet infusions (McIntosh et al.), 1020
Isovalerate, isovalerylglycine, and 3-hydroxyisovalerate in urine of patient previously reported as having butyric and hexanoic acidemia: isovaleric acidemia (Ando et al.), 243
Isovaleric acidemia: identification of isovalerate, isovalerylglycine, and 3-hydroxyisovalerate in urine of patient previously reported as having butyric and hexanoic acidemia (Ando et al.), 243
Isovalerylglycine, isovalerate, and 3-hydroxyisovalerate in urine of patient previously reported as having butyric and hexanoic acidemia: isovaleric acidemia (Ando et al.), 243

J

Jaundice, exposure to quinine and, in glucose-6-phosphate dehydrogenase–deficient newborn infant (Glass et al.) (Letter), 734
neonatal, tanning from phototherapy for (Woody and Brodkey) (BCLO), 1042
obstructive, serum alkaline phosphatase in infants with: relation to vitamin D supplementation (Bastis-Maounis, Matsaniotis, and Maounis), 68
Jaundiced and normal rats, intestinal development of lysosomal and microsomal beta glucuronidase and bilirubin uridine diphosphoglucuronyl transferase in (Kandall, Thaler, and Erickson), 1013
Joint contractures, microcephaly, cataracts, and kyphosis, syndrome of, versus Cockayne's syndrome (Sugarman) (Letter), 351; (Lowry and Tischler) (Reply), 351

K

Karyotyping, prenatal, routine, indicated in pregnancies of very young women (Zellweger and Simpson) (BCLO), 675
Ketotic hypoglycemia (Senior) (Editor's column), 555
glycemic response to 24 hour fast in normal children and children with (Chaussain), 438
Kinase, phosphoglycerate, deficiency, erythrocyte and leukocyte, with neurologic disease (Konrad et al.), 456
Kwashiorkor, abnormal Rebuck skin window response in (Freyre et al.), 523
Kyphosis, microcephaly, cataracts, and joint contractures, syndrome of, versus Cockayne's syndrome (Sugarman) (Letter), 351; (Lowry and Tischler) (Reply), 351

L

Lambs, newborn, normovolemic, circulatory effects of hematocrit variations in (Fouron and Hébert), 995
Lancefield group B, suppurative meningitis due to streptococci of: study of 33 infants (Baker et al.), 724
Laxative (inorganic phosphate) poisoning resulting in tetany in infant (Levitt, Gessert, and Finberg) (BCLO), 479
Leigh's encephalomyelopathy, further speculation on pathogenesis of (De Groot and Hommes) (Letter), 541
pathogenesis of (Lonsdale) (Letter), 169; (Lardy, Tang, and Good) (Reply), 169
Lesch-Nyhan syndrome, detection of heterozygous carriers of, by electrophoresis of hair root lysates (Francke, Bakay, and Nyhan), 472
Lesion, minimal-, nephrotic syndrome, relapsing, corticosteroid responsive, in childhood, controlled prospective study of cyclophosphamide in (Chiu, McLaine, and Drummond), 607
Leukemia, central nervous system, cytocentrifugation in (Addiego and Woodruff) (Letter), 891; (Komp) (Reply), 891
histiocytic, following lifelong infection and thrombocytopenia: histologic, metabolic, and bactericidal studies (Johnson, Griep, and Baehner), 664
lymphatic, acute, pneumonitis in, during methotrexate therapy (Robbins et al.) (BCLO), 84
lymphocytic, acute, Raynaud's phenomenon preceding (Powell) (Letter), 539
Poland's syndrome associated with (Walters et al.) (Letter), 889
Leukocyte and erythrocyte phosphoglycerate kinase deficiency with neurologic disease (Konrad et al.), 456
Light, blue, in phototherapy, avoidance of undesirable effects of (Sisson and Kendall) (Letter), 163
Lip-palate, cleft, syndrome, ectrodactyly, ectodermal dysplasia, and (Robinson, Wildervanck, and Chiang) (BCLO), 107
Lipodystrophy, generalized, pituitary-hypothalamic dysfunction in (Mabry et al.), 625
Liver function tests, serologic, other, in normal subjects and patients with cystic fibrosis, effects of age on alkaline phosphatase and (Kattwinkel et al.), 234
glucuronyl transferase, effect of gentamicin on (Malaka-Zafiriu, Tsiouris, and Cassimos), 118

Lobar emphysema, congenital, documented by serial roentgenograms (DeLuca, Wesselhoeft, and Frates) (BCLO), 859
Lobe counts, polymorphonuclear, in congenital hypothyroidism (Kiossoglou et al.) (Letter), 162
Lung maturation and growth retardation in fetal rabbits, heroin induction of (Taeusch et al.), 869
Lupus-like disease in children, anticonvulsant-induced antinuclear antibodies and (Beernink and Miller), 113
Lymphatic leukemia, acute, pneumonitis in, during methotrexate therapy (Robbins et al.) (BCLO), 84
Lymphocytic leukemia, acute, Raynaud's phenomenon preceding (Powell) (Letter), 539
Lymphoma, malignant, and nephrotic syndrome (Hyman et al.), 207
Lysates, hair root, electrophoresis of, detection of heterozygous carriers of Lesch-Nyhan syndrome by (Francke, Bakay, and Nyhan), 472
Lysosomal and microsomal beta glucuronidase and bilirubin uridine diphosphoglucuronyl transferase in normal and jaundiced rats, intestinal development of (Kandall, Thaler, and Erickson), 1013

M

Malabsorption, sugar, screening tests for (Walker-Smith) (Letter), 893; (Ament) (Reply), 893
Malignancies, Pneumocystis carinii pneumonitis in children with (Hughes et al.), 404
Malignant lymphoma and nephrotic syndrome (Hyman et al.), 207
mixed mullerian tumor of cervix following cyclophosphamide therapy for nephrotic syndrome (Bashour, Mancer, and Rance) (BCLO), 292
Mannose, urinary, in mannosidosis (Nordén et al.) (BCLO), 686
Mannosidosis, urinary mannose in (Nordén et al.) (BCLO), 686
Marasmic infants, changes in growth hormone, insulin, and thyroxine values, and in energy metabolism of (Parra et al.), 133
Marrow, bone, transplantation in infant with Wiskott-Aldrich syndrome, improved platelet function following (August et al.), 58
Maternal deprivation syndrome, possible relationship between spontaneous hypoglycemia and: case reports (Schutt-Aine, Drash, and Kenny), 909
trimethadione ingestion, fetal anomalies following (Nichols) (Letter), 885
virilizing tumor, female pseudohermaphroditism secondary to (Haymond and Weldon) (BCLO), 682
Measles IgM response during reinfection of previously vaccinated children (Linnemann et al.), 798
vaccine failure, clinical and serologic study of 103 children with (Cherry et al.), 802
of protection by (Plotkin) (Editor's column), 908
Meckel's diverticulum, bleeding, preoperative diagnosis of, utilizing ^{99m}technetium pertechnetate scinti-imaging (Jaros, Schussheim, and Levy), 45
Mellitus, diabetes, obesity, and hyperinsulinism in childhood (Martin and Martin), 192
Membranous, extra-, glomerulonephritis in children: report of 50 cases (Habib, Kleinknecht, and Gubler), 754
membranous glomerulopathy (West) (Editor's column), 902
Menarche, age of: changing pattern and relationship to ethnic origin and delinquency (Litt and Cohen) (BCLO), 288
Meningitis, group B beta hemolytic streptococcal, in infants (Barton, Feigin, and Lins), 719
nitroblue tetrazolium dye test and differential diagnosis of (Fikrig et al.) (BCLO), 855
suppurative, due to streptococci of Lancefield group B: study of 33 infants (Baker et al.), 724
Meningococcal purpura: report of 19 patients treated with heparin (Gérard et al.), 780
Meningococcemia, acute, heparin therapy in (Hathaway) (Editor's column), 900
circulating fibrin in (Kisker and Rush), 787
Mental retardation, atrophy, dwarfism, and generalized aminoaciduria, syndrome characterized by congenital ichthyosis with (Passweil et al.), 466
Mesangial deposition of immunoglobulin and complement, recurrent macroscopic hematuria, focal nephritis, and (Roy et al.), 767
Metabolic alkalosis and salt depletion in cystic fibrosis (Arvanitakis and Lobeck) (Letter), 535
aspects of Beckwith-Wiedemann syndrome (Schiff et al.), 258
and biochemical studies in fructose 1,6-diphosphatase deficiency (Melancon et al.), 650
histologic, and bactericidal studies: histiocytic leukemia following lifelong infection and thrombocytopenia (Johnson, Griep, and Baehner), 664
Metabolism, energy, of marasmic infants, changes in growth hormone, insulin, and thyroxine values, and in (Parra et al.), 133
guide to screening newborn infants for inborn errors of (Buist and Jhaveri), 511

Metastasizing fetal neuroblastoma (Anders) (Letter), 1095
with involvement of placenta simulating fetal erythroblastosis (Anders, Kindermann, and Pfeifer), 50
Metastatic osteogenic sarcoma, spontaneous pneumothorax in (Swaney and Cangir) (Letter), 165
Methotrexate therapy, pneumonitis in acute lymphatic leukemia during (Robbins et al.) (BCLO), 84
Metrication and infant formulas (van der Horst) (Letter), 163
Microcephaly, cataracts, kyphosis, and joint contractures, syndrome of, versus Cockayne's syndrome (Sugarman) (Letter), 351; (Lowry and Tischler) (Reply), 351
Microsomal and lysosomal beta glucuronidase and bilirubin uridine diphosphoglucuronyl transferase in normal and jaundiced rats, intestinal development of (Kandall, Thaler, and Erickson), 1013
Milk, human, excretion of orally ingested nitrofurantoin in (Varsano, Fischl, and Shochet) (Letter), 886
host resistance factors in (Goldman and Smith), 1082
Mitral valve involvement, severe, report of case with: type III mucopolysaccharidosis (Herd, Subramanian, and Robinson) (BCLO), 101
Monozygotic twins, identical progression of juvenile hereditary nephronophthisis in (Makker et al.), 773
Mucopolysaccharidosis, new: report of clinical, radiologic, and biochemical features of: beta glucuronidase deficiency (Sly et al.), 249
type III: report of case with severe mitral valve involvement (Herd, Subramanian, and Robinson) (BCLO), 101
Mullerian tumor, mixed, malignant, of cervix following cyclophosphamide therapy for nephrotic syndrome (Bashour, Mancer, and Rance) (BCLO), 292
Muscular, intra-, doses, single, of benzathine penicillin G, levels of penicillin in serum of newborn infants after (Klein et al.), 1065
Myelinopathy, hexachlorophene, in premature infants (Powell et al.), 976

N

Nasal aspirator, suction-controlled, for collection of nasopharyngeal secretions (Benincaso and Smith) (BCLO), 297
Nasojejeunal alimentation for premature and full-term newborn infants (Cheek and Staub), 955
feeding: improved device and intubation technique (Rhea, Ghazzawi, and Weidman), 951
Nasopharyngeal secretions, suction-controlled nasal aspirator for collection of (Benincaso and Smith) (BCLO), 297
ventilation in respiratory distress syndrome (Novogroder et al.) (BCLO), 1059
NBT test in thalassemia (Liakakos and Vlachos) (Letter), 352; (Park) (Reply), 353
Negro child, hemoglobin S-D disease in (Barton, Stark, and Zarkowsky) (Letter), 164
Neonatal intensive care: planning for services and outcomes following care (Schlesinger), 916
Nephritis, focal, recurrent macroscopic hematuria, and mesangial deposition of immunoglobulin and complement (Roy et al.), 767
Nephrocalcinosis and tubular dysfunction, familial nephrotic syndrome with (Burke, Holley, and Stickler), 202
Nephronophthisis, hereditary, juvenile, in monozygotic twins, identical progression of (Makker et al.), 773
Nephrotic syndrome in children, incidence of bacteriuria in (Mc Vicar et al.) (Letter), 166
familial with nephrocalcinosis and tubular dysfunction (Burke, Holley, and Stickler), 202
malignant lymphoma and (Hyman et al.), 207
mixed mullerian tumor of cervix following cyclophosphamide therapy for (Bashour, Mancer, and Rance) (BCLO), 292
relapsing, corticosteroid-responsive, minimal-lesion, in childhood, controlled prospective study of cyclophosphamide in (Chiu, McLaine, and Drummond), 607
steroid-dependent, chlorambucil in (Grupe), 598
responsive but frequently relapsing, therapeutic and toxic effects observed with different dosage programs of cyclophosphamide in treatment of (McCrory et al.), 614
Nervous system, central, leukemia, cytocentrifugation in (Addiego and Woodruff) (Letter), 891; (Komp) (Reply), 891
Neuroblastoma, fetal, metastasizing (Anders) (Letter), 1095
with involvement of placenta simulating fetal erythroblastosis (Anders, Kindermann, and Pfeifer), 50
and ganglioneuroma, human, demonstration of cholinergic cells in (Prasad, Mandal, and Kumar) (BCLO), 677
late death from (Konrad, Singher, and Neerhout) (BCLO), 80
(Jaffe) (Letter), 1094
Neurologic disease, erythrocyte and leukocyte phosphoglycerate kinase deficiency with (Konrad et al.), 456
New books received, 159, 341, 732
News and notes, 179, 358, 549, 745, 899, 1101

Nitroblue tetrazolium dye test and differential diagnosis of meningitis (Fikrig et al.) (BCLO), 855
Nitrofurantoin, orally ingested, in human milk, excretion of (Varsano, Fischl, and Shochet) (Letter), 886
Nodule, solitary, functioning of thyroid in child (Rosenbloom) (BCLO), 491
Nuclear, anti-, antibodies, anticonvulsant-induced, and lupus-like disease in children (Beernink and Miller), 113

O

Obesity, hyperinsulinism, and diabetes mellitus in childhood (Martin and Martin), 192
Opsonins: function, identity, and clinical significance (Winkelstein), 747
Orbital hypertelorism, iris dysplasia, and psychomotor retardation: dominantly inherited developmental syndrome (De Hauwere et al.) (BCLO), 679
Organogenesis, isolated defect of: congenital adrenal hypoplasia (Sperling, Wolfsen, and Fisher), 444
Ornithine transcarbamylase deficiency in newborn infant (Kang, Snodgrass, and Gerald), 642
Osteogenic sarcoma, metastatic, spontaneous pneumothorax in (Swaney and Cangir) (Letter), 165
Oxygen, arterial, saturation, neonatal cyanosis and (Goldman et al.), 319
  tension, arterial, monitoring, continuous, in newborn infant (Harris and Nugent), 929

P

Palate, cleft lip-, syndrome, ectrodactyly, ectodermal dysplasia, and (Robinson, Wildervanck, and Chiang) (BCLO), 107
Pancreatic amylase in infancy, physiologic deficiency of: factor in iatrogenic diarrhea (Lilibridge and Townes) (BCLO), 279
  beta cell, delayed maturation of: transient neonatal diabetes (Pagliara, Karl, and Kipnis) (BCLO), 97
Pancytopenia, hepatosplenomegaly, and fever (Weinberg and Rogers), 879
Paraplegia: complication of umbilical artery catheterization (Aziz and Robertson) (BCLO), 1051
Parenteral alimentation, total, relevance in: ammonia intoxication (Forbes) (Letter), 890
Pathogenetic factors, possible, in neonatal hypocalcemia of prematurity (Tsang et al.), 423
Pediatric care, planning for (Nelson) (Editor's column), 180
  health manpower for 1970's, blueprint for (Silver), 149
Penicillin G, benzathine, in neonates with regard to recommended use in congenital syphilis, clinical pharmacology of (Kaplan and McCracken), 1069
  in newborn infants, clinical pharmacology of (McCracken et al.), 692
  in serum of newborn infants after single intramuscular doses of benzathine penicillin G, levels of (Klein et al.), 1065
Pericarditis, septic, in infancy, echocardiographic diagnosis of (Pieroni et al.) (BCLO), 689
Peritoneal clearance of ammonia and creatinine in neonate (Siegel and Brown) (BCLO), 1044
  fluid in necrotizing enterocolitis: radiologic sign of clinical deterioration (Leonidas et al.) (BCLO), 672
Pertechnetate, ^{99m} technetium, scinti-imaging, preoperative diagnosis of bleeding Meckel's diverticulum utilizing (Jaros, Schussheim, and Levy), 45
Pharyngeal pseudodiverticulum, traumatic, in newborn infant (Edison and Holinger) (BCLO), 483
Pharyngitis, streptococcal, treatment of (Walker) (Letter), 170; (Azimi) (Reply), 170
Phenobarbital and alkaline phosphatase (Khandekar) (Letter), 353; (Thurmon) (Reply), 354
  for prevention of hyperbilirubinemia in glucose-6-phosphate dehydrogenase–deficient newborn infants (Meloni et al.) (BCLO), 1048
Phenylketonuria, normal development of infant of mother with (Goldstein, Auerbach, and Grover) (BCLO), 489
Phosphatase, alkaline, activity, serum, during adolescence (Salz, Daum, and Cohen) (Letter), 536
  and other serologic liver function tests in normal subjects and patients with cystic fibrosis, effects of age on (Kattwinkel et al.), 234
  phenobarbital and (Khandekar) (Letter), 353; (Thurmon) (Reply), 354
  serum, in infants with obstructive jaundice: relation to vitamin D supplementation (Bastis-Maounis, Matsaniotis, and Maounis), 68
  values in children (Harris) (Editor's column), 361
Phosphate, glucose-6-, dehydrogenase–deficient newborn infant, exposure to quinine and jaundice in (Glass et al.) (Letter), 734
  phenobarbital for prevention of hyperbili;ubinemia in (Meloni et al.) (BCLO), 1048
  inorganic (laxative) poisoning resulting in tetany in infant (Levitt, Gessert, and Finberg) (BCLO), 479
  sodium, medication, hypertonic, coma in infant due to (Smith, Feldman, and Furukawa) (BCLO), 481

Phosphoglycerate kinase deficiency, erythrocyte and leukocyte, with neurologic disease (Konrad et al.), 456
Phototherapy, avoidance of undesirable effects of blue light in (Sisson and Kendall) (Letter), 163
intermittent, agar, and continuous phototherapy for reducing neonatal hyperbilirubinemia, controlled trial for comparing (Maurer et al.), 73
for neonatal jaundice, tanning from (Woody and Brodkey) (BCLO), 1042
urinary excretion of 5-hydroxyindolacetic acid in low-birth-weight infants with and without (Spennati, Girotti, and Orzalesi) (BCLO), 286
Pituitary, anterior, hypoplasia of, and neonatal hypoglycemia (Johnson et al.), 634
hypothalamic dysfunction in generalized lipodystrophy (Mabry et al.), 625
Placenta, chorioangioma of, hydrops fetalis in association with (Sweet, Reid, and Roberton) (BCLO), 91
metastasizing fetal neuroblastoma with involvement of, simulating fetal erythroblastosis (Anders, Kindermann, and Pfeifer), 50
Plasma infusions in infant with Hurler's syndrome (Booth and Nadler), 273
zinc and copper, total, nondiffusible, and diffusible, during infancy, changes in (Henkin et al.), 831
Platelet counts, fibrinogen concentrations and factor V and factor VIII levels in healthy infants according to gestational age (Sell and Corrigan), 1028
function, improved, following bone marrow transplantation in infant with Wiskott-Aldrich syndrome (August et al.), 58
infusions, response to: neonatal isoimmune purpura (McIntosh et al.), 1020
Pneumocutaneous fistula secondary to aspiration of grass (Cavens et al.) (Letter), 737
Pneumocystis carinii pneumonia and primary immune deficiency diseases of infancy and childhood (Walzer et al.), 416
pneumonitis in children with malignancies (Hughes et al.), 404
Pneumonia, Pneumocystis carinii, and primary immune deficiency diseases of infancy and childhood (Walzer et al.), 416
Pneumonitis in acute lymphatic leukemia during methotrexate therapy (Robbins et al.) (BCLO), 84
Pneumocystis carinii, in children with malignancies (Hughes et al.), 404
Pneumothorax, spontaneous, in metastatic osteogenic sarcoma (Swaney and Cangir) (Letter), 165
Poisoning, inorganic phosphate (laxative), resulting in tetany in infant (Levitt, Gessert, and Finberg) (BCLO), 479
Poisons, ingestion of, comparison of ipecac syrup and apomorphine in immediate treatment of (MacLean), 121
Poland's syndrome associated with leukemia (Walters et al.) (Letter), 889
Politics, population and (Lanman) (Editor's column), 908
Polymorphonuclear lobe counts in congenital hypothyroidism (Kiossoglou et al.) (Letter), 162
Polyneuropathy, hypertrophic interstitial, in infancy (Anderson et al.), 619
Pompe's disease, deficiency of acid alpha glucosidase in urine of patients with (Salafsky and Nadler) (BCLO), 294
Population and politics (Lanman) (Editor's column), 908
Pregnancies of very young women, is routine prenatal karyotyping indicated in (Zellweger and Simpson) (BCLO), 675
Premature and full-term newborn innfants, nasojejunal alimentation for (Cheek and and Staub), 955
prevalence of bacteriuria in (Edelmann et al.), 125
infants, hexachlorophene myelinopathy in (Powell et al.), 976
Prematurity, neonatal hypocalcemia of, possible pathogenetic factors in (Tsang et al.), 423
Prenatal karyotyping, routine, indicated in pregnancies of very young women (Zellweger and Simpson) (BCLO), 675
Pressure, blood, in brachial and posterior tibial arteries using Doppler method, measurement of (Hartmann et al.) (BCLO), 498
continuous negative external, in treatment of severe respiratory distress syndrome, controlled trial of (Fanaroff et al.), 921
failures in continuous positive airway pressure, alarm system for (Hogan and Indyk) (BCLO), 485
negative, continuous, in management of severe respiratory distress syndrome (Brown, Somerwill, and Sweet) (Letter), 348; (Outerbridge, Stern, and Roloff) (Reply), 350
Propranolol in treatment of cardiac arrhythmias associated with amitriptyline intoxication (Roberts, Mueller, and Lauer), 65
Pseudodiverticulum, pharyngeal, traumatic, in newborn infant (Edison and Holinger) (BCLO), 483
Pseudohermaphroditism, female, secondary to maternal virilizing tumor (Haymond and Weldon) (BCLO), 682
Psychomotor retardation, iris dysplasia, orbital hypertelorism, and: dominantly inherited developmental syndrome (De Hauwere et al.) (BCLO), 679
Psychophysiologic effects in neonate of prone versus supine placement (Brackbill, Douthitt, and West) (BCLO), 82

Psychosocial short stature (emotional deprivation), resistance to exogenous human growth hormone in (Tanner) (Letter), 171; (Azimi) (Reply), 171
Pulmonary function in cystic fibrosis, variable effect of bronchodilating agent on (Landau and Phelan), 863
stenosis, supravalvular (Roberts and Moes), 838
Purpura, isoimmune, neonatal: response to platelet infusions (McIntosh et al.), 1020
meningococcal: report of 19 patients treated with heparin (Gérard et al.), 780

Q

Quinacrine fluorescence, identification of partial 12 trisomy by (Uchida and Lin), 269
Quinine, exposure to, and jaundice, in glucose-6-phosphate dehydrogenase–deficient newborn infant (Glass et al.) (Letter), 734

R

Rabbits, fetal, heroin induction of lung maturation and growth retardation in (Taeusch et al.), 869
Radiologic, clinical, and biochemical features of new mucopolysaccharidosis, report of: beta glucuronidase deficiency (Sly et al.), 249
sign of clinical deterioration: peritoneal fluid in necrotizing enterocolitis (Leonidas et al.) (BCLO), 672
Rats, normal and jaundiced, intestinal development of lysosomal and microsomal beta glucuronidase and bilirubin uridine diphosphoglucuronyl transferase in (Kandall, Thaler, and Erickson), 1013
Raynaud's phenomenon preceding acute lymphocytic leukemia (Powell) (Letter), 539
Rebuck skin window response, abnormal, in kwashiorkor (Freyre et al.), 523
Reflux, transurethral, during cleansing procedure for clean-voided urine specimens in low-birth-weight infants (Thrupp et al.) (BCLO), 1057
Renal failure, subacute (Daeschner and Singer), 527
vein thrombosis, consumptive coagulopathy with (Renfield and Kraybill) (BCLO), 1054
Residencies and fellowships, 183
Respiratory distress syndrome, nasopharyngeal ventilation in (Novogroder et al.) (BCLO), 1059
severe, continuous negative pressure in management of (Brown, Somerwill, and Sweet) (Letter), 348; (Outerbridge, Stern, and Roloff) (Reply), 350
controlled trial of continuous negative external pressure in treatment of (Fanaroff et al.), 921
sodium bicarbonate therapy for (Eidelman, Nash, and Edelmann) (Letter), 172; (Ostrea and Odell) (Reply), 173
Respiratory—Cont'd
infections, viral and bacterial, with exacerbations of wheezing in young asthmatic children, association of (McIntosh et al.), 578
Reye's syndrome, therapeutic success in (Waldman, Given, and Schwartz) (Letter), 343
Rhythm, sinus, coronary, and umbilical vein catheterization (Freedom) (BCLO), 1052
Rickets, development of, antiepileptic drugs and (Livingston and Berman) (Letter), 347; (Borgstedt et al.) (Reply), 348
severe, in infancy and childhood in Ethiopia (Mariam and Sterky), 876
Roentgenograms, serial, congenital lobar emphysema documented by (DeLuca, Wesselhoeft, and Frates) (BCLO), 859
Rubella vaccination, follow-up on, and experience with subclinical reinfection (Huygelen and Prinzie) (Letter), 1096; (Farquhar) (Reply), 1097

S

Saccharopinuria, enzyme defect in (Simell, Johansson, and Aula), 54
Salt depletion in cystic fibrosis, metabolic alkalosis and (Arvanitakis and Lobeck) (Letter), 535
Sarcoma, osteogenic, metastatic, spontaneous pneumothorax in (Swaney and Cangir) (Letter), 165
Scheduled meetings, 177, 355, 546, 742, 896, 1100
School health services, relation to: medical communications (Hunt) (Letter), 346; (Hoffman) (Letter), 346; (Sewell) (Reply), 347
Schwartz syndrome (Landwirth) (Letter), 352
another case report (Santesteban) (Letter), 1094
Scinti-imaging, ^{99m}technetium pertechnetate, preoperative diagnosis of bleeding Meckel's diverticulum utilizing (Jaros, Schussheim, and Levy), 45
Seizures associated with vincristine sulfate therapy (Johnson et al.), 699
Serologic and clinical study of 103 children with measles vaccine failure (Cherry et al.), 802
liver function tests, other, in normal subjects and patients with cystic fibrosis, effects of age on alkaline phosphatase and (Kattwinkel et al.), 234
Serum alkaline phosphatase activity during adolescence (Salz, Daum, and Cohen) (Letter), 536
in infants with obstructive jaundice: relation to vitamin D supplementation (Bastis-Maounis, Matsaniotis, and Maounis), 68
cord, triiodothyronine in (Lieblich and Utiger) (BCLO), 290

Serum—Cont'd
ionized calcium values in relation to exchange transfusion (Gershanik, Levkoff, and Duncan) (BCLO), 847
levels of alpha-1 fetoprotein, IgG globulin, and albumin in newborn infants, influence of gestational age on (Hyvarinen et al.), 430
of digoxin (Huffman and Kauffman) (Letter), 544; (Krasula and Soyka) (Reply), 545
of newborn infants after single intramuscular doses of benzathine penicillin G, levels of penicillin in (Klein et al.), 1065
Shunts, ventriculocardiac (Anderson), 222
Sickle cell anemia, oral urea therapy in children with (Lubin and Oski), 311
Sinus rhythm, coronary, and umbilical vein catheterization (Freedom) (BCLO), 1052
Skeletal age of hypopituitary children treated with thyroid hormone plus cortisone, advancement of (Van den Brande et al.), 22
Skin window response, Rebuck, abnormal, in kwashiorkor (Freyre et al.), 523
Smallpox vaccination in high-risk groups, need for (Burnside) (Letter), 892; (Karzon) (Reply), 892
Sodium bicarbonate therapy for respiratory distress syndrome (Eidelman, Nash, and Edelmann) (Letter), 172; (Ostrea and Odell) (Reply), 173
phosphate medication, hypertonic, coma in infant due to (Smith, Feldman, and Furukawa) (BCLO), 481
Spleen size, decrease in, during thalassemia major (Lohrmann) (Letter), 739; (O'Brien and Pearson) (Reply), 740
Staphylococcal colonization in newborn infant, effect of triple dye on (Pildes, Ramamurthy, and Vidyasagar), 987
rates in newborn infant, effect of hexachlorophene on: controlled study using single-bath method (Kwong et al.), 982
Stenosis, pulmonary, supravalvular (Roberts and Moes), 838
subglottic, congenital (Cundy and Bergstrom) (BCLO), 282
valvar aortic, in childhood: clinical and hemodynamic history (Hurwitz), 228
Steroid-dependent nephrotic syndrome, chlorambucil in (Grupe), 598
responsive but frequently relapsing nephrotic syndrome, therapeutic and toxic effects observed with different dosage programs of cyclophosphamide in treatment of (McCrory et al.), 614
Stool(s), first, in preterm, low-birth-weight infant (Mangurten, Slade, and Reidl), 1033
related vibrio in (Butzler et al.) (BCLO), 493
Streptococcal meningitis, group B beta hemolytic, in infants (Barton, Feigin, and Lins), 719
Streptococcal—Cont'd
neonatal and infant infections, group B (Franciosi et al.), 707
pharyngitis, treatment of (Walker) (Letter), 170; (Azimi) (Reply), 170
Streptococci, group B: new challenge in neonatal infections (McCracken), 703
of Lancefield group B, suppurative meningitis due to: study of 33 infants (Baker et al.), 724
Suction-controlled nasal aspirator for collection of nasopharyngeal secretions (Benincaso and Smith) (BCLO), 297
Sugar malabsorption, screening tests for (Walker-Smith) (Letter), 893; (Ament) (Reply), 893
Sulfate, vincristine, therapy, seizures associated with (Johnson et al.), 699
Sweat electrolytes in thyroid disorders (Strickland) (BCLO), 284
Syndrome, Bartter's, antidiuretic therapy in (Proesmans, Eggermont, and Eeckels) (Letter), 538
Beckwith-Wiedemann, metabolic aspects of (Schiff et al.), 258
campomelique (Schmickel, Heidelberger, and Poznanski) (BCLO), 299
characterized by congenital ichthyosis with atrophy, mental retardation, dwarfism, and generalized aminoaciduria (Passwell et al.), 466
cleft lip-palate, ectrodactyly, ectodermal dysplasia, and (Robinson, Wildervanck, and Chiang) (BCLO), 107
collagen-like, associated with antithyroid therapy (Hung and August) (BCLO), 852
D_1 trisomy, cause of: duplication/deficiency product of pericentric inversion in man (Taysi et al.), 263
dominantly inherited developmental: iris dysplasia, orbital hypertelorism, and psychomotor retardation (De Hauwere et al.) (BCLO), 679
Down's, small ears in: helpful diagnostic aid (Aase, Wilson, and Smith) (BCLO), 845
exomphalos-macroglossia-gigantism, immunodeficiency associated with (Greene et al.), 814
familial, of deafness, alopecia, and hypogonadism (Crandall et al.), 461
hemolytic-uremic, in California: review of 28 nonheparinized cases with long-term follow-up (Tune, Leavitt, and Gribble), 304
(See The value of collaboration: the California model) (Lieberman) (Editor's column), 363
Hurler's, plasma infusions in infant with (Booth and Nadler), 273
Lesch-Nyhan, detection of heterozygous carriers of, by electrophoresis of hair root lysates (Francke, Bakay, and Nyhan), 472

Syndrome—Cont'd
maternal deprivation, possible relationship between spontaneous hypoglycemia and: case reports (Schutt-Aine, Drash, and Kenny), 809
of microcephaly, cataracts, kyphosis, and joint contractures versus Cockayne's syndrome (Sugarman) (Letter), 351; (Lowry and Tischler) (Reply), 351
nephrotic, in children, incidence of bacteriuria in (Mc Vicar et al.) (Letter), 166
familial, with nephrocalcinosis and tubular dysfunction (Burke, Holley, and Stickler), 202
malignant lymphoma and (Hyman et al.), 207
mixed mullerian tumor of cervix following cyclophosphamide therapy for (Bashour, Mancer, and Rance) (BCLO), 292
relapsing, corticosteroid-responsive, minimal-lesion, in childhood, controlled prospective study of cyclophosphamide in (Chiu, McLaine, and Drummond), 607
steroid-dependent, chlorambucil in (Grupe), 598
responsive but frequently relapsing, therapeutic and toxic effects observed with different dosage programs of cyclophosphamide in treatment of (McCrory et al.), 614
Poland's, associated with leukemia (Walters et al.) (Letter), 889
respiratory distress, nasopharyngeal ventilation in (Novogroder et al.) (BCLO), 1059
severe, continuous negative pressure in management of (Brown, Somerwill, and Sweet) (Letter), 348; (Outerbridge, Stern, and Roloff) (Reply), 350
controlled trial of continuous negative external pressure in treatment of (Fanaroff et al.), 921
sodium bicarbonate therapy for (Eidelman, Nash, and Edelmann) (Letter), 172; (Ostrea and Odell) (Reply), 173
Reye's, therapeutic success in (Waldman, Given, and Schwartz) (Letter), 343
Schwartz (Landwirth) (Letter), 352
another case report (Santesteban) (Letter), 1094
Wiskott-Aldrich, attenuated form of (Amaya et al.) (Letter), 175; (Blaese and Weiden) (Reply), 176
improved platelet function following bone marrow transplantation in infant with (August et al.), 58
Syphilis, congenital, clinical pharmacology of benzathine penicillin G in neonates with regard to recommended use in (Kaplan and McCracken), 1069
glomerulopathy of (Hughes) (Letter), 1098; (Kaplan and Drummond) (Reply), 1099
Syrup, ipecac, and apomorphine in immediate treatment of ingestion of poisons, comparison of (MacLean), 121

T

Tanning from phototherapy for neonatal jaundice (Woody and Brodkey) (BCLO), 1042
^{99m}Technetium pertechnetate scinti-imaging, preoperative diagnosis of bleeding Meckel's diverticulum utilizing (Jaros, Schussheim, and Levy), 45
Test(s), dye, nitroblue tetrazolium, and differential diagnosis of meningitis (Fikrig et al.) (BCLO), 855
liver function, serologic, other, in normal subjects and patients with cystic fibrosis, effects of age on alkaline phosphatase and (Kattwinkel et al.), 234
NBT, in thalassemia (Liakakos and Vlachos) (Letter), 352; (Park) (Reply), 353
Tetany in infant, inorganic phosphate (laxative) poisoning resulting in (Levitt, Gessert, and Finberg) (BCLO), 479
Tetrazolium, nitroblue, dye test and differential diagnosis of meningitis (Fikrig et al.) (BCLO), 855
Thalassemia major, decrease in spleen size in (Lohrmann) (Letter), 739; (O'Brien and Pearson) (Reply), 740
NBT test in (Liakakos and Vlachos) (Letter), 352; (Park) (Reply), 353
Thermal environment of low-birth-weight infants, preliminary studies on (Yashiro et al.), 991
Thrive, failure to, in infancy wtih normal development into adulthood (Sobel) (Letter), 1095; (Reinhart) (Reply), 1095
Thrombocytopenia, histiocytic leukemia following lifelong infection and: histologic, metabolic, and bactericidal studies (Johnson, Griep, and Baehner), 664
Thromboembolus to abdominal aorta in neonate (Ordway and Stout), 143
Thrombosis, renal vein, consumptive coagulopathy with (Renfield and Kraybill) (BCLO), 1054
Thyroglobulin, anti-, antibodies, low-titer and "negative," in biopsy-proved juvenile Hashimoto's thyroiditis, prevalence of (Loeb, Drash, and Kenny), 17
Thyroid, anti-, therapy, collagen-like syndrome associated with (Hung and August) (BCLO), 852
disease, advances in laboratory diagnosis of: part I (Fisher), 1
part II (Fisher), 187
disorders, sweat electrolytes in (Strickland) (BCLO), 284
functioning solitary nodule of, in child (Rosenbloom) (BCLO), 491
hormone plus cortisone, advancement of skeletal age of hypopituitary children treated with (Van den Brande et al.), 22

Thyroiditis, Hashimoto's, juvenile, biopsy-proved, prevalence of low-titer and "negative" antithyroglobulin antibodies in (Loeb, Drash, and Kenny), 17
Thyroxine values, growth hormone, and insulin, and in energy metabolism of marasmic infants, changes in (Parra et al.), 133
Tibial arteries, posterior, brachial and, using Doppler method, measurement of blood pressure in (Hartmann et al.) (BCLO), 498
Toxicity, cyclopentolate (Cyclogyl), systemic, in newborn infant (Bauer, Trottier, and Stern), 501
Toxoplasmosis, congenital, subclinical, intellectual deficits in children born with: preliminary report (Saxon et al.), 792
Tracheostomy in primary herpetic gingivostomatitis (Fermaglich and Fermaglich) (Letter), 887
Transcarbamylase, ornithine, deficiency in newborn infant (Kang, Snodgrass, and Gerald), 642
Transferase, diphosphoglucuronyl, uridine, bilirubin, in normal and jaundiced rats, intestinal development of lysosomal and microsomal beta glucuronidase and (Kandall, Thaler, and Erickson), 1013
glucuronyl, liver, effect of gentamicin on (Malaka-Zafiriu, Tsiouris, and Cassimos), 118
Transferrin saturation, age, race, and, in preschool children of comparable socioeconomic status, hemoglobin levels according to (Owen, Lubin, and Garry) (BCLO), 850
Transfusion, exchange, serum ionized calcium values in relation to (Gershanik, Levkoff, and Duncan) (BCLO), 847
program, home, hemophilia: effect of cryoprecipitate utilization (Lazerson) (BCLO), 857
Translocation, Y-autosome, 46,X,t(Yq-:7q+) associated with multiple congenital anomalies (Develing, Conte, and Epstein) (BCLO), 495
Transplantation, bone marrow, in infant with Wiskott-Aldrich syndrome, improved platelet function following (August et al.), 58
Triiodothyronine in cord serum (Lieblich and Utiger) (BCLO), 290
Trimethadione ingestion, maternal, fetal anomalies following (Nichols) (Letter), 885
Trisomy, D_1, syndrome, cause of: duplication/deficiency product of pericentric inversion in man (Taysi et al.), 263
partial 12, identification of, by quinacrine fluorescence (Uchida and Lin), 269
Tube, endotracheal, in newborn infants, rapid maneuvers to determine location of (Scanlon) (Letter), 1091
position in infants (Lindsay) (Letter), 168
Tubular dysfunction and nephrocalcinosis, familial nephrotic syndrome with (Burke, Holley, and Stickler), 202
Tumor, malignant mixed mullerian, of cervix following cyclophosphamide therapy for nephrotic syndrome (Bashour, Mancer, and Rance) (BCLO), 292
virilizing, maternal, female pseudohermaphroditism secondary to (Haymond and Weldon) (BCLO), 682
Twins, monozygotic, identical progression of juvenile hereditary nephronophthisis in (Makker et al.), 773

U

Umbilical artery catheterization, complication of: paraplegia (Aziz and Robertson) (BCLO), 1051
vein catheterization, coronary sinus rhythm and (Freedom) (BCLO), 1052
Urea therapy, oral, in children with sickle cell anemia (Lubin and Oski), 311
Urethral, trans-, reflux during cleansing procedure for clean-voided urine specimens in low-birth-weight infants (Thrupp et al.) (BCLO), 1057
Uridine diphosphoglucuronyl transferase, bilirubin, in normal and jaundiced rats, intestinal development of lysosomal and microsomal beta glucuronidase and (Kandall, Thaler, and Erickson), 1013
Urinary excretion of 5-hydroxyindolacetic acid in low-birth-weight infants with and without phototherapy (Spennati, Girotti, and Orzalesi) (BCLO), 286
mannose in mannosidosis (Nordén et al.) (BCLO), 686
Urine of patient previously reported as having butyric and hexanoic acidemia, identification of isovalerate, isovalerylglycine, and 3-hydroxyisovalerate in: isovaleric acidemia (Ando et al.), 243
with Pompe's disease, deficiency of acid alpha glucosidase in (Salafsky and Nadler) (BCLO), 294
specimens, clean-voided, in low-birth-weight infants, transurethral reflux during cleansing procedure for (Thrupp et al.) (BCLO), 1057

V

Vaccinated, previously, children, measles IgM response during reinfection of (Linnemann et al.), 798
Vaccination, rubella, follow-up on, and experience with subclinical reinfection (Huygelen and Prinzie) (Letter), 1096; (Farquhar) (Reply), 1097
smallpox, in high-risk groups, need for (Burnside) (Letter), 892; (Karzon) (Reply), 892

Vaccine, measles, failure, clinical and serologic study of 103 children with (Cherry et al.), 802
of protection by (Plotkin) (Editor's column), 908
Valvar aortic stenosis in childhood: clinical and hemodynamic history (Hurwitz), 228
Valve, mitral, involvement, severe, report of case with: type III mucopolysaccharidosis (Herd, Subramanian, and Robinson) (BCLO), 101
Valvular, supra-, pulmonary stenosis (Roberts and Moes), 838
Varicella, corticosteroids and immunity to (Lopez) (Letter), 740; (Gershon and Brunell) (Reply), 740
VATER association (Quan and Smith) (BCLO), 104
Vein, renal, thrombosis, consumptive coagulopathy with (Renfield and Kraybill) (BCLO), 1054
umbilical, catheterization, coronary sinus rhythm and (Freedom) (BCLO), 1052
Venous, intra-, alimentation in low-birth-weight infants (Hensley) (Letter), 542; (Driscoll et al.) (Reply), 542
supplemental, in low-birth-weight infants (Bryan et al.), 940
amino acid hydrolysate, treatment of acrodermatitis enteropathica by (Freier et al.) (BCLO), 109
supplementation of L-amino acids and dextrose in low-birth-weight infants (Pildes et al.), 945
Ventilation, nasopharyngeal, in respiratory distress syndrome (Novogroder et al.) (BCLO), 1059
Ventriculocardiac shunts (Anderson), 222
Vibrio, related, in stools (Butzler et al.) (BCLO), 493
Vincristine sulfate therapy, seizures associated with (Johnson et al.), 699
Viral and bacterial respiratory infections with exacerbations of wheezing in young asthmatic children, association of (McIntosh et al), 578
Virilizing tumor, maternal, female pseudohermaphroditism secondary to (Haymond and Weldon) (BCLO), 682
Virus, ECHO 19, overwhelming neonatal infection with (Philip and Larson), 391
Viscosity, hyper-, in neonate (Gross, Hathaway, and McGaughey), 1004
Vitamin D supplementation, relation to: serum alkaline phosphatase in infants with obstructive jaundice (Bastis-Maounis, Matsaniotis, and Maounis), 68
Volemic, normo-, newborn lambs, circulatory effects of hematocrit variations in (Fouron and Hébert), 995

W

Wheezing, exacerbations of, in young asthmatic children, association of viral and bacterial respiratory infections with (McIntosh et al.), 578
Wiskott-Aldrich syndrome, attenuated form of (Amaya et al.) (Letter), 175; (Blaese and Weiden) (Reply), 176
improved platelet function following bone marrow transplantation in infant with (August et al.), 58

Y

Y-autosome translocation 46,X,t(Yq-:7q+) associated with multiple congenital anomalies (Develing, Conte, and Epstein) (BCLO), 495

Z

Zinc and copper, plasma, total, nondiffusible, and diffusible, during infancy, changes in (Henkin et al.), 831

Cholestasis, intrahepatic and extrahepatic, effect of phenobarbital on hyperlipemia in patients with (Linarelli, Hengstenberg, and Drash), 291
Chromosome abnormalities, two different, resulting from translocation carrier father (Bass, Crandall, and Marcy) (BCLO), 1031
G-group, elongated short arm of, associated with similar phenotypic abnormalities in three patients (Monteleone et al.) (BCLO), 473
No. 22, monosomy of: case report (DeCicco et al.) (BCLO), 836
Chymotrypsin, fecal: reliable index of exocrine pancreatic function in children (Bonin et al.), 594
Cirrhosis in 8-month-old infant, case report (McCarthy) (BCLO), 638
Coagulation, disseminated intravascular, in newborn infant with Listeria sepsis (Miller and Kisker) (BCLO), 638
intravascular, disseminated, Shiga bacillus dysentery complicated by bacteremia and (Ullis and Rosenblatt) (BCLO), 90
Cold stimulation, initiation of breathing by: effects of change in ambient temperature on respiratory activity of full-term fetal lamb (Harned and Ferreriro), 663
Coma and episodic seizures in 14-year-old boy (Norman, Prichard, and Harwood-Nash), 494
Congenital adrenal hyperplasia, iatrogenic hypertension in children with (Kirkland et al.) (Letter), 687
hypoplasia (Szalay) (Letter), 169
cytomegalic inclusion disease, bilateral eventration of diaphragm in neonate with (Wayne et al.) (Letter), 164
defect in absorption of folic acid, additional information on (Santini, Millán, and Santiago-Borrero) (Letter), 345
head nodding and nystagmus with cerebrocerebellar degeneration (Kalyanaraman et al.) (BCLO), 1023
hemihypertrophy and adrenocortical carcinoma (Haicken, Schulman, and Schneider) (BCLO), 284

Congenital—Cont'd
lymphedema and yellow nails (Kleinman) (BCLO), 454
toxoplasmosis (Griscelli et al.) 20
variability in IgM–fluorescent antibody response and some pitfalls in diagnosis (Remington and Desmonts), 27
Coombs-Beckwith-Weidemann, syndrome of, diazoxide therapy in (Gotlin) (Letter), 342
Corneal staining in tears of children with cystic fibrosis (Botelho, Goldstein, and Rosenlund), 601
Corpuscular volume, mean, and mean corpuscular hemoglobin determination, alpha thalassemia screening in nenoates by (Schmaier et al.), 794
Corticosteroids, adrenal, and cyclophosphamide, varicella reactivation in nephrotic syndrome treated with (Resnick and Schanberger) (BCLO), 451
Cortisol, diurnal patterns of secretion of, and growth hormone in normal adolescents, in patients with exogenous and endogenous Cushing's syndrome, in patients with diabetes mellitus, and in fasting subject (Vazquez et al.), 578
Craniofacial dysraphia, anterior pituitary function in neonate with (Yagnik et al.) (Letter), 1090
Craniopharyngioma in children (Banna et al.), 781
Craniosynostosis in one family, radioulnar synostosis and (Berant and Berant) (BCLO), 88
Creatinine and inulin clearances in children, congruence of (Lorentz) (Letter), 1100; (Arant et al.) (Reply), 1101; (Robson) (Reply), 1102
Cromolyn therapy for severe asthma in children (Friday et al.), 299
Croup, management of (Cherry et al.) (Letter), 167; (Newth, Levison, and Bryan) (Reply), 167; (Edelson and Caspe) (Letter), 167; (Smith and Turtz) (Reply), 167
Cups, paper medicine, inaccuracy of: warning (Asnes, Grebin, and Maqbool), 848
Cushing's disease, iatrogenic, in boy after misdiagnosis of salt-losing virilizing adrenal hyperplasia: impaired metyrapone response with failure of catch-up growth (Mendilaharzu, Gregory, and Gardner), 69
syndrome, diurnal patterns of secretion of cortisol and growth hormone in patients with (Vazquez et al.), 578
Cyanotic patients with heart disease, improvement in hemostasis following phlebotomy in (Wedemeyer and Lewis), 46
Cyclophosphamide and adrenal corticosteroids varicella reactivation in nephrotic syndrome treated with (Resnick and Schanberger) (BCLO), 451
Cystic fibrosis with edema and falsely negative sweat test (MacLean and Tripp) (BCLO), 86
Cystic fibrosis—Cont'd
electrolyte concentration in tears of children with (Botelho, Goldstein, and Rosenlund), 601
Cytomegalic inclusion disease, congenital, bilateral eventration of diaphragm in neonate with (Wayne et al.) (Letter), 164
Cytomegalovirus infection, disseminated, and recurrent bacterial infections, defect of neutrophil motility in child with (Soriano et al.), 951

D

D_1 trisomy syndrome, questionable diagnosis of (Wyatt) (Letter), 177; (Taysi, Say, and Bobrow) (Reply), 177
Deafness, nerve, chronic lactic acidemia, and growth failure, metabolic myopathy associated with (Hackett et al.), 426
Death, rapid, in childhood (Neff, Dorst, and Spear), 679
Degeneration, cerebrocerebellar, congenital head nodding and nystagmus with (Kalyanaraman et al.) (BCLO), 1023
Dengue hemorrhagic fever, studies of (Pongpanich and Kumponpant), 1073
Dento-lacrimo-auriculo-digital syndrome (Hollister et al.), 438
Depression in children referred to educational diagnostic center, diagnosis and treatment (Weinberg et al.), 1065
Dermatomyositis (Shaller) (Editor's column), 699
in childhood, late progression in (Miller), 543
Diabetes mellitus, diurnal patterns of secretion of cortisol and growth hormone in patients with (Vazquez et al.), 578
nitroblue tetrazolium reduction test in (Spirer and Bogair) (Letter), 685
Diabetic acidosis, insulin and sodium bicarbonate treatment of: retrospective review (Krumlik and Ehrlich) (BCLO), 268
mothers, congenital heart disease in infants of (Rowland, Hubbell, and Nadas), 815
Diagnostic abilities, comparative, of child health associate interns and practicing pediatricians (Fine and Silver), 332
Diaphragm, bilateral eventration of, in neonate with congenital cytomegalic inclusion disease (Wayne et al.) (Letter), 164
Diarrhea, acute, in Apache children, ad libitum oral glucose-electrolyte therapy for (Hirschhorn et al.), 562
iatrogenic (Poley) (Letter), 173; (Lilibridge and Townes) (Reply), 174
Diazoxide therapy in syndrome of Beckwith-Weidemann-Coombs (Gotlin) (Letter), 342
Diencephalic autonomic epilepsy caused by neoplasm (Solomon) (BCLO), 277
Digital-lacrimo-auriculo-dento syndrome (Hollister et al.), 438
Diphenylhydantoin in children, single daily dose of (Buchanan et al.), 479
therapy, control rate in (Livingston and Berman) (Letter), 348; (Borofsky et al.) (Reply), 349

2,3-Diphosphoglycerate, red blood cell, in children, effect of exercise on (Austin et al.), 41
Disease(s) of children, significance of life events as contributing factors in: study of pediatric patients (Heisel et al.), 119
congenital heart, *Hemophilus aphrophilus* brain abscess associated with (Fischbein, Beckett, and Rosenthal) (BCLO), 631
Cushing's, iatrogenic, in boy after misdiagnosis of salt-losing virilizing adrenal hyperplasia: impaired metyrapone response with failure of catch-up growth (Mendilaharzu, Gregory, and Gardner), 69
cytomegalic inclusion, congenital, bilateral eventration of diaphragm in neonate with (Wayne et al.) (Letter), 164
glycogen storage, type IX: benign glycogenosis of liver and hepatic phosphorylase kinase deficiency (Schimke et al.) (BCLO), 1031
granulomatous, chronic, and female carriers, simple screening method for detecting: NBT slide test (Ochs and Igo), 77
nocardiosis in child with (Bujak et al.) (BCLO), 98
heart, congenital in infants of diabetic mothers (Rowland, Hubbell, and Nadas), 815
improvement in hemostasis following phlebotomy in cyanotic patients with (Wedemeyer and Lewis), 46
liver, in drug-using adolescents: updated statistics (Litt) (Letter), 171
mixed connective tissue, in child (Sanders, Huntley, and Sharp) (BCLO), 642
Sanfilippo B: serum assays for detection of homozygous and heterozygous individual in three families (von Figura et al.), 607
Diuresis, furosemide, suprapubic bladder puncture in (Marovári and Görgényi) (Letter), 698
DNA content, nuclear, of normal and hypertrophied myocardium in pediatric age group (Simon and Richart), 445
Down's syndrome, extra-adrenal pheochromocytoma with metastasis in (Kuni) (BCLO), 835
Drug and alcohol use, patterns of illicit, among secondary school students (Milman and Su), 314
using adolescents, liver disease in: updated statistics (Litt) (Letter), 171
Dwarfism, familial camptomelic (Thurmon, DeFraites, and Anderson) (BCLO), 841
Laron's: studies on nature of defect (Elders et al.), 253
megepiphyseal (Gorlin, Alper, and Langer) (BCLO), 633
Dysentery, Shiga bacillus, complicated by bacteremia and dissseminated intravascular coagulation (Ullis and Rosenblatt) (BCLO), 90

Echocardiographic diagnosis of septic pericarditis in infancy (Glaser) (Letter), 697; (Pieroni) (Reply), 698
Ecthyma gangrenosum produced by *Aeromonas hydrophilia* (Shackelford, Ratzan, and Shearer) (BCLO), 100
Edema and falsely negative sweat test, cystic fibrosis with (MacLean and Tripp) (BCLO), 86
Educational diagnostic center, depression in children referred to, diagnosis and treatment (Weinberg et al.), 1065
Electrocardiographic diagnosis of left ventricular hypertrophy in apparently normal children (Traywick et al.), 201
Electrolyte concentrations in tears of children with cystic fibrosis (Botelho, Goldstein, and Rosenlund), 601
disturbances in Liberian children with kwashiorkor (Kingston), 859
glucose therapy, ad libitum oral, for acute diarrhea in Apache children (Hirschhorn et al.), 562
status of malnourished Thai children, evaluation of (Caddell and Olson), 124
Encephalitis, herpesvirus, treatment of, with iododeoxyuridine (Haynes et al.), 102
Endobronchial foreign bodies in children, radionuclide lung scanning in diagnosis of (Leonidas et al.) (BCLO), 628
Endocarditis, bacterial, and aortic valve, Takayasu's arteriopathy with involvement of (Gilbert et al.) (BCLO), 463
Endocrinology of puberty: aberrations of sexual maturation (Root), 187
normal sexual maturation (Root), 1
Enzymatic and electrophoretic methods, re-evaluation of galactosemic family by (Mayes, Howard, and Seely) (BCLO), 476
Epidemiologic study: idiopathic thrombocytopenic purpura (Lammi and Lovric), 31
Epiglottitis, more on treatment of (Myers) (Letter), 168
routine tracheotomy for: what are odds? (Bass) (Letter), 510
Epilepsy, diencephalic autonomic, caused by neoplasm (Solomon) (BCLO), 277
Erythrocyte, platelet, and fibrinogen kinetics in hemolytic-uremic syndrome of infancy (Katz et al.), 739
Erythropoiesis, current concepts of action of androgenic steroids on (Jepson et al.) (Editor's column), 703
Estriol, plasma, concentration in infants with respiratory distress syndrome (Conly et al.), 851
Ethanol, intravenously induced infantile intoxication with (Peden, Sammon, and Downey), 490
Euthanasia and children: injury of continued existence (Engelhardt) (Letter), 170
Evaluation of activities of nurses and pediatricians in university outpatient department (Heagarty et al.), 867
Eventration, bilateral, of diaphragm in neonate with congenital cytomegalic inclusion disease (Wayne et al.) (Letter), 164
Exercise, effect of, on red blood cell 2,3-diphosphoglycerate in children (Austin et al.), 41

F

Facial, oral, ocular, and limb anomalies, hypotonia, obesity, and mental deficiency, new syndrome with (Cohen et al.) (BCLO), 280
Familial camptomelic dwarfism (Thurmon, DeFraites, and Anderson) (BCLO), 841
glucose-galactose malabsorption: remission of glucose intolerance (Elsas and Lambe), 226
Fat-free alimentation, intravenous, blood lipid alterations in infants receiving (White et al.), 305
Fatty acids, serum, before and after recovery from acrodermatitis enteropathica: comparison of infant with her family (White and Montalvo), 999
unsaturated, in acrodermatitis enteropathica, evidence for normal metabolism and interconversions of (Kayden and Cox), 993
Fellowships in adolescent medicine (Hofmann) (Editor's column), 512
Fetal brain development, early, scalp hair patterning as clue to (Smith and Gong), 374
a-1-Fetoprotein and gestational age (Anagnostakis) (Letter), 1093
Fever, anemia, and cardiac failure (Breck and Harper), 136
Fibrillation, atrial, in infancy (Zaldivar et al.) (BCLO), 821
Fibrinogen, erythrocyte, and platelet kinetics in hemolytic-uremic syndrome of infancy (Katz et al.), 739
Fibrosis, cystic, with edema and falsely negative sweat test (MacLean and Tripp) (BCLO), 86
Filtration rate, glomerular, and renal plasma flow, simultaneous measurement of, using plasma disappearance curves (Silkalns et al.), 749
Fluorescent antibody response, IgM–, and some pitfalls in diagnosis: congenital toxoplasmosis (Remington and Desmonts), 27
Folic acid, additional information on congenital defect in absorption of (Santini, Millan, and Santiago-Borrero) (Letter), 345
Furosemide diuresis, suprapubic bladder puncture in (Marovári and Görgényi) (Letter), 698
Fusarium solani infection during treatment for acute leukemia (Cho et al.) (BCLO), 1028

G

Galactosemia, pitfalls in diagnosis of (Donnell) (Editor's column), 515
Galactosemic family, re-evaluation of, by enzymatic and electrophoretic methods (Mayes, Howard, and Seely) (BCLO), 476
Galactose-glucose malabsorption, familial: remission of glucose intolerance (Elsas and Lambe), 226
Gangrenosum, ecthyma, produced by *Aeromonas hydrophilia* (Shackelford, Ratzan, and Shearer) (BCLO), 100
Gastroenteritis, salmonella, in children, controlled trial comparing sulfamethoxazole-trimethoprim, ampicillin, and no therapy in treatment of (Kazemi, Gumpert, and Marks), 646
Gastrointestinal tract, assuming meal had remained in (Haydon-Baillie) (Letter), 888
immunology of (Walker and Hong), 517, 711
Gestational age and a-1-fetoprotein (Anagnostakis) (Letter), 1093
and postnatal age, role of, in neonatal parathyroid function (Tsang et al.), 728
Genital anomaly, mental retardation, and cardiomyopathy: new syndrome? (Najjar, Der Kaloustian, and Nassif) (BCLO), 286
Gigantism, hypothalamic (Costin, Fefferman, and Kogut), 419
Globulin, gamma, repeated reactions following intramuscular injection of (Kleinman and Weksler) (BCLO), 827
Glomerular filtration rate and renal plasma flow, simultaneous measurement of, using plasma disappearance curves (Silkalns et al.), 749
Glomerulonephritis and nephrotic syndrome, spontaneous chemotaxis in patients with (Norman and Miller), 390
Glomerulonephropathy, membranous, and bulbous pemphigoid in child (Esterly et al.) (BCLO), 466
Glucose electrolyte therapy, ad libitum oral, for acute diarrhea in Apache children (Hirschhorn et al.), 562
galactose malabsorption, familial: remission of glucose intolerance (Elsas and Lambe), 226
Glycerol, iodinated (Organidin), goiter complicating therapy with (Block) (BCLO), 84
Glycogen storage disease type IX: benign glycogenosis of liver and hepatic phosphorylase kinase deficiency (Schimke et al.) (BCLO), 1031
Glycogenosis, benign, of liver and hepatic phosphorylase kinase deficiency: glycogen storage disease type IX (Schimke et al.) (BCLO), 1031
Type I: decreased ketogenesis in von Gierke's disease (Binkiewicz and Senior), 973
Goiter complicating therapy with iodinated glycerol (Organidin) (Block) (BCLO), 84
iodine, following lymphography (Koutras and Sinaniotis) (BCLO), 83
simple, in pediatrics, differentiation of chronic lymphocytic thyroiditis and (Monteleone et al.), 381
Granulomatous disease, chronic, and female carriers, simple screening method for detecting: NBT slide test (Ochs and Igo), 77
nocardiosis in child with (Bujak et al.) (BCLO), 98

Growth, abnormal, infections, and episodes of stress: fetal complications of maternal heroin addiction (Naeye et al.), 1055
and bone maturation, acceleration of, in childhood thyrotoxicosis (Schlesinger, MacGillivray, and Munschauer), 233
catch-up, impaired metyrapone response with failure of: iatrogenic Cushing's disease in boy after misdiagnosis of salt-losing virilizing adrenal hyperplasia (Mendilaharzu, Gregory, and Gardner), 69
and development of children with renal transplants; use of alternate-day steroid therapy (McEnery et al.), 806
failure, chronic lactic acidemia, and nerve deafness, metabolic myopathy associated with (Hackett et al.), 426
hormone and cortisol, diurnal patterns of, in normal adolescents, in patients with exogenous and endogenous Cushing's syndrome, in patients with diabetes mellitus, and in a fasting subject (Vazquez et al.), 578
and immunoreactive insulin responses in patients with Prader-Willi syndrome (Parra, Cervantes, and Schultz), 587
performance, relation to: more on hemoglobin levels (Garn and Smith) (Letter), 346
retardation, intrauterine, jaundice, and hypoglycemia in neonate (Ordway and Stout), 867

improvement in hemostasis following phlebotomy in cyanotic patients with (Wedemeyer and Lewis), 46
Hematuria, gross, rupture of appendix, unusual cause of (Berger et al.) (Letter), 502
Hemihypertrophy, congenital, and adrenocortical carcinoma (Haicken, Schulman, and Schneider) (BCLO), 284
Hemoglobin determination, mean corpuscular, alpha thalassemia screening in neonates by mean corpuscular volume and (Schmaier et al.), 794
levels, more on: relation to growth performance (Garn and Smith) (Letter), 346
Hemoglobin—Cont'd
S and J coexisting in same family (Gellady and Schwartz) (BCLO), 1038
Hemolytic anemia, autoimmune, in Wiskott-Aldrich syndrome during treatment with transfer factor (Ballow, Dupont, and Good), 772
streptococci, beta, not Group A or D, in neonates, observations concerning infections with (Echeverria) (Letter), 499
uremic syndrome, heparin therapy in (Vitacco, Sanchez Avalos, and Gianantonio) (BCLO), 271
of infancy, platelet, erythrocyte, and fibrinogen kinetics in (Katz et al.), 739
Hemophilia home transfusion program: analysis of cost data (Lazerson) (BCLO), 623
Hemophilus aphrophilus brain abscess associated with congenital heart disease (Fischbein, Beckett, and Rosenthal) (BCLO), 631
Hemostasis following phlebotomy in cyanotic patients with heart disease, improvement in (Wedemeyer and Lewis), 46
H. influenzae pneumonia in infants and children (Honig, Pasquariello, and Stool), 215
Henderson-Hasselbalch to Henderson: better way to teach? (Winters and Dell), 372
Heparin therapy in hemolytic-uremic syndrome (Vitacco, Sanchez Avalos, and Gianantonio) (BLCO), 271
Hepatic, intra-, and extrahepatic cholestasis, effect of phenobarbital on hyperlipemia in patients with (Linarelli, Hengstenberg, and Drash), 291
Hepatitis B antigen (HB Ag)–positive chronic aggressive hepatitis and cirrhosis in 8-month-old infant, case report (McCarthy) (BCLO), 633
postexchange transfusion, in newborn infant (King et al.) (Letter), 341
Heparin and nephrectomy in renal vein thrombosis (Seeler) (Letter), 895; (Renfield) (Reply), 896
Hermaphroditism, true, with XX/XY mosaicism: report of case (Shanfield and Hume) (BCLO), 471
Heroin addiction, maternal, fetal complications of: abnormal growth, infections, and episodes of stress (Naeye et al.), 1055
Herpes neonatorum, early diagnosis, scalp vesicles in first week of life as clue (Echeverria et al.), 1062
Herpesvirus encephalitis, treatment of, with iododeoxyuridine (Haynes et al.), 102
Holoprosencephaly, siblings of patients with, hypothalamic-pituitary dysfunction in (Romshe and Sotos) (Letter), 1090
Hormonal, thyroid, studies in normal and severely malnourished infants and small children (Graham et al.), 321
Hormone, growth, and cortisol, diurnal patterns of, in normal adolescents, in patients with exogenous and endogenous Cushing's syndrome, in patients with diabetes mellitus, and in a fasting subject (Vazquez et al.), 578

Humoral immune and cellular response to group B streptococci (Klesius et al.), 926
Hydrocephalus, temporary treatment of, and myelodysplasia with isosorbide: preliminary report (Shurtleff et al.), 651
Hydrogen ion, acid-base phenomena and (Weil), 359
Hyperbilirubinemia, agar in control of (Blum and Etienne) (Letter), 345
neonatal, double-light phototherapy for (Isenberg and Fisch), 116
phototherapy for (Zachman) (Letter), 690; (Reply) (Maurer, Draper, and Shumway), 691
dose: response relationship (Mims et al.), 658
Hyperglobulinemia, fatal X-lined recessive reticuloendothelial syndrome with (Falletta et al.), 549
Hyperlipemia in patients with intrahepatic and extrahepatic cholestasis, effect of phenobarbital on (Linarelli, Hengstenberg, and Drash), 291
Hypernatremia, transient, after bacterial meningitis (Montgomery, Harrington, and Ivers) (Letter), 885
Hyperplasia, congenital adrenal, in children with iatrogenic hypertension (Kirkland et al.) (Letter), 687
salt-losing virilizing adrenal, iatrogenic Cushing's disease in boy after misdiagnosis of: impaired metyrapone response with failure of catch-up growth (Mendilaharzu, Gregory, and Gardner), 69
Hyperprolinemia, study of large family (Potter and Waickman) (BCLO), 633
Hyperpyrexia, malignant, anesthetic-induced, in children (King and Denborough), 37
or XX-XY Turner phenotype? (Pinsky and Levy) (Letter), 869; (Denborough) (Reply), 897
Hypertension, iatrogenic, in children with congenital adrenal hyperplasia (Kirkland et al.) (Letter), 687
progressive pulmonary, in children with portal hypertension (Levine et al.), 964
relief of, in 8-year-old boy: renal autotransplantation in treatment of bilateral renal artery stenosis (Sinaiko et al.), 409
Hypertensive, normokalemic, prepubertal girl, calcified aldosterone-producing tumor in (Kelch et al.), 432
Hypertrophy, left ventricular, in apparently normal children, electrocardiographic diagnosis of (Traywick et al.), 201
Hyperventilation, salicylism, and central nervous system (Brem et al.) (BCLO), 264
Hypoglycemia in infancy and childhood (Cornblath, Pildes, and Schwartz) (Letter), 692; Raivio and Hallman) (Letter), 693; Pagliara et al.) (Reply), 694
intrauterine growth retardation, and jaundice in neonate (Ordway and Stout), 867
